A.2-2: No, Applicants must currently be a full-time employee working in a professional field. (Self-employed and freelance included)

Q.2-3: I am currently working but I go to school part-time. Am I eligible to apply for the IATSS Forum?

A.2-3: Yes. As long as you are a full-time employee working in a professional field, you are eligible to apply for the program.

## <Selection Process>

Q3: From what point of view does the IATSS Forum do the screenings?

A3: In the interview, the IATSS Forum appreciates applicants’ ability to express their opinions clearly. Also, we focus on whether the applicants are open-minded towards other points of view and able to contribute on both an individual and a group level. From this point of view, we try to select people from a variety of backgrounds and fields to avoid homogeneous groups.

Q4: I am Malaysian, and living in Singapore at the moment. Which country committee should I apply to, Malaysia or Singapore?

A4: Please apply to the Malaysian Country Committee. If you have passed the second screening, you will have a final interview in Malaysia as well. This is because participants will be selected as representatives of their nations.

## <Programs>

Q5: As the IATSS Forum is organized by IATSS (International Association of Traffic and Safety Sciences), do the contents of the program only focus on traffic related issues or any specific field?

A5: No. We aim to give participants many opportunities to broaden their knowledge in a variety of fields, and offer them a chance to tackle a variety of issues.

Q6: I have heard that the IATSS Forum provides a leadership training program for promising young people from ASEAN countries. Could you please tell me a little more about this program?

A6: The IATSS Forum fosters the development of participants leadership skills which can “produce new value from diversity.” The IATSS Forum considers a “leader” to be “a person who, in striving towards a goal, is capable of bringing out the strengths of a group to their fullest.” Therefore, “leadership” is “the ability to maximize a group’s potential by effectively applying its strengths to their utmost, leading to the attainment of a goal.”

Q7: What is your teaching methodology as regards the Leadership Program?

A7: We believe in learning through experience and as such we provide participants with opportunities to obtain leadership skills naturally, on their own. We do this through a variety of programs such as “Group Study,” “Seminars,” “Field Study” and “International Exchange Activities.” The role of the IATSS Forum is to empower young professionals from ASEAN countries to cultivate leadership knowhow, by giving them a place to practice it. Our motto, “Thinking and Learning Together,” has served as the core concept of the Forum since its foundation. It is our hope that participants will be able to actualize this motto through engaging in these programs where they will have the opportunity to act, take in new information and learn on their own. We believe they will be able to make many new discoveries through their experiences and observations and, in the end, come to a mutual understanding on matters through discussions with other future ASEAN leaders.

Q8: I have heard that, at the IATSS Forum, there are no tests to complete the program, nor a declaration of ranking regarding the participants’ performances. Why is that? In that case, will no one be evaluating or giving advice for improvement? Will the performance of the participants not be reported to their supervisors?

A8: The IATSS Forum does not evaluate participants or rank them. Because the purpose of the IATSS Forum is not to obtain knowledge or information, we do not have tests to check how much knowledge or information the participants have acquired. The IATSS Forum is a place where participants cooperate with each other. Moreover, the IATSS Forum does not report anything to the participants’ supervisors.

Participants can evaluate themselves on how deeply and broadly they have thought through a lot of discussion in seminars or Group Study. During the IATSS Forum program, the participants will have a lot of opportunities to think and discuss issues in meeting their ASEAN neighbors and Japanese people, touching on Japan’s current situation, and tackling various ASEAN issues from a global perspective. The objective of the IATSS Forum is to deepen participants’ understanding by thinking and discussing things together on the basis of knowledge or information.

#### <Others>

Q9: After completing the IATSS Forum program, I would like to visit some places before leaving Japan; may I have permission to do so?

Q10: On the way back home from Japan, may I drop by some other countries? Of course, I do not mind paying the necessary expenses.

A9&10:No. Participants must return to their home country by the designated date, on the designated airline. Your training visa permits you to stay in Japan only during the program period. In

addition, your primary purpose should be to participate in the program, and after that to be reinstated to your current job, to put what you have gained at the IATSS Forum into practical use. From this point of view, the IATSS Forum requests that you return straight home right after the program.

Q11: Who bears the expenses related to the IATSS Forum program?

A11: The IATSS Forum pays for the round trip airfare, participation fees for the program, accommodations, and almost all food expenses, etc. Participants need to pay for their personal expenses and part of their food expenses. More detailed information regarding the burden of expense is written in the “Letter of Agreement” which will be given to successful candidates after the final interview.

Q12: After completion of the IATSS Forum program, will participants be involved in any particular activity?

A12: After completion of the IATSS Forum program, Participants will join the IATSS Forum alumni association in their home country. These organizations offer a place to continue sharing a wealth of experience through networks of alumni that span a broad range of ages and occupational fields. Active alumni associations in each country provide opportunities for alumnus to get together and exchange the latest information from various fields. Alumni activities also include informational sessions for prospective applicants and NGO-type community services, such as English lessons or traffic safety education for disadvantaged children.

Q13: I am a CEO, so I would need to work during the program if I was selected. How many hours per day do I have free time or when does the daily program finish every day?

A13: You should not expect to have free time every day during the program. You are expected to attend some evening programs, have practice or collaboration work on most of the evenings during the program. You will be expected to build bonds and trust with other participants during your free time, as a result we require participants to involve themselves fully in the forum’s program and not busy themselves with outside work.
